

# PMC Youth Programs Summer 2025 Camps Info

All PMC Youth Programs are led by trained mentors who are dedicated to fostering the enrichment, learning, skill development, and overall well-being of every participant. To ensure the safety and quality of the programs, mentors undergo comprehensive background checks and are certified in First Aid/CPR or Wilderness First Aid/Responder. In addition, they receive specialized training in areas such as child development, sport-specific coaching, mega-fauna awareness, mental health first aid, Stewards of Children, and other key areas to help create a secure and supportive environment for both participants and staff.

Starting in the summer of 2025, all PMC Youth Programs will integrate elements of the Sources of Strength curriculum. This strength-based program is designed to promote mental health and wellness, reduce risk behaviors, and build resilience in young people. It focuses on empowering participants through positive influences and encourages healthy decision-making and emotional well-being. By emphasizing the importance of social connections and support systems, Sources of Strength helps individuals develop the tools they need to navigate challenges and thrive.

Our summer 2025 line-up of programs will provide youth with 344 hours of ORCA Camp opportunities in a variety of settings covering a wide variety of experiences. While our Kinder Skog & Forest Kindy programs will offer up to 750 hours of hands-on, sensory-rich, outdoor play and learning time.
